

Giftng, Awards, Honorariums and Sponsorships

In their elected capacity, the Board of Education represents the community which the school district serves. Several important aspects of that representation are honoring employees, students, volunteers, and community members; supporting events; expressing sympathy; and encouraging altruistic opportunities.

To fulfill the above-mentioned objectives, the district shall have a set of guidelines from which the Board and staff can provide honoring sentiments in a consistent, uniform manner. It shall be the goal of these guidelines to provide assistance in making choices on the appropriate gift or sentiment, but allow for reasonable discretion to assure the gift or sentiment is appropriate to the occasion.

The guidelines shall be maintained by the Public Information Office and updated as needed. Copies of the current list of guidelines shall be made available upon request.

Adopted April 24, 2002
