

## Class Size

The Board believes that class size has a bearing upon effective teaching and learning. The Board shall review District level class size standards on an annual basis and modify them as necessary based on the availability of District resources and other pertinent factors. These standards will become the basis for the District's annual staffing plan.

Schools will be allocated staff in accordance with the annual staffing plan. The Superintendent or designee shall work with principals in establishing a reasonable class enrollment for each teacher.
