

## Field Trips

The Board recognizes that the first-hand learning experiences provided by field trips are a most effective and worthwhile means of learning. It is the desire of the Board to encourage educational field trips as part of and directly related to the total school program.

Specific guidelines and appropriate administrative procedures have been developed to screen, approve and evaluate trips and to ensure that all reasonable steps are taken for the safety of the participants.

These guidelines and procedures shall ensure that all field trips have the prior approval of the principal and that all overnight trips and out of state trips have the prior approval of the Superintendent.
