

Supply List 2009-2010

Longs Peak requires that every student has a daily planner. LPMS planners will be available to the students through their homerooms beginning the first day of school in August. The cost of the planner is \$5.00. We believe it is an excellent tool to help monitor student progress for the student, the teacher and the parent. Students are expected to have all their supplies by the end of the 1st week of school. If students are unable to have the required supplies because of financial hardship, please notify the teacher or the principal and alternate arrangements will be made. Please replenish supplies as needed or in January.
